ABOUT ME

UI/UX Designer with a background in computer education and graphic design, passionate about crafting intuitive, user-centered digital experiences that solve real problems. Skilled in transforming complex ideas into clean, accessible, and visually engaging interfaces through wireframing, prototyping, and usability testing. Proficient in leveraging AI tools to accelerate design workflows, generate insights, and deliver smarter, faster solutions. Committed to human-centered design principles that balance aesthetics with functionality across web and mobile platforms.

PROJECTS

Netflix App UI Replica

Designed a Netflix app UI replica in Figma to practice core UI/UX principles.
